Dura-Life Bag-Clean Air Side

Polyester Bag-Clean Air Side

Above photos show clean air side of Dura-Life and standard polyester bags after 2,700 hours of use. Engineered Dura-Life filter bags provide a more uniform media with smaller pore size that provides better surface loading and less depth loading, resulting in improved pulse cleaning, lower pressure drop and longer bag life.

Dura-Life™, more bag for your buck

No one can match the breath-taking performance of Donaldson® Torit®. Our latest display of engineering expertise—Dura-Life™* filter bags—is the spectacular innovation you've been waiting to see.

Providing twice the bag life, lower maintenance costs, 99.9% efficiency and energy savings, Dura-Life filter bags raise baghouse dust collection to a whole new level. Standard in all Donaldson Torit baghouse collectors, Dura-Life filter bags are also available as replacement filter bags for any baghouse collector.

Only available from Donaldson Torit, Dura-Life is the engineered filter bag that outlasts, outperforms and outvalues standard polyester. Liberate yourself from frequent bag change-outs, unnecessary maintenance and costly downtime. Get Dura-Life.

There's finally cause to celebrate with Dura-Life. Revolutionize your filter bag performance today—call Donaldson Torit at 888.869.9312 or visit duralifebags.com.

*Dura-Life bags are made with Durapex™ media from PGI.
